Your Directors commend his appointment for a further period of 3 (three) years.

Item No 9, 10, 11 and 12:

Split in Face Value of Equity Shares and Alteration in Memorandum of Association and Articles of Association of the Company

At present, the equity shares of the Company are listed on National Stock Exchange of India Limited (NSE) and the Bombay Stock Exchange Limited (BSE) and they are actively traded in NSE and BSE. The market price of the shares of the Company has also witnessed significant spurt over the last one and half years approximately. Presently, the face value of the equity share of the Company is ₹ 10. In order to enhance the liquidity in the capital market, to widen shareholder base and to make the shares affordable to small investors, the Board of Directors in their meeting held on 25.04.2013 have considered it desirable to sub-divide (split the face value) of the existing nominal value of the equity shares of the Company from the present ₹ 10 each paid-up per equity share into 2 (Two) equity shares of ₹ 5/- each fully paid-up. Stock split would serve the purpose of raising liquidity of the share, without increasing the Company's equity servicing burden (as overall equity capital remains the same).

Shareholders attention is also invited to the fact that in view of the foregoing, the existing Capital Clause V of the Memorandum of Association and Article 2 of the Articles of Association of the Company also need relevant amendment to give effect to the sub-division of equity shares.

Presently the Articles of Association do not contain the provision for capitalization of Profits and/or Reserves. In line with guidelines issued by Securities and Exchange Board of India (Issue of capital & Disclosure requirement) regulations, 2009, the listed companies should have provisions in the articles to enable the Board to recommend the issue of Bonus shares by capitalizing the reserves. Hence, to enable the Board to consider the issue of Bonus shares by capitalizing reserves in the future, the new Article is being inserted.

None of the Directors of the Company is interested in the resolution, except to the extent of their shareholding and the shareholding of their relatives, if any, in the Company.

Your Directors recommend the above resolution for your approval.

(I) STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES FOLLOWED IN THE COMPILATION OF THE ACCOUNTS

(A) Basis of preparation of financial statements

(i) Basis of Accounting:

The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India and presented under the historical cost convention on accrual basis of accounting to comply with the accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 and with the relevant provisions of the Companies Act, 1956.

(ii) Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of financial statements and reported amounts of income and expenses during the period.

(B) Tangible and Intangible Assets

(i) Tangible Fixed Assets

Tangible fixed assets are carried at the cost of acquisition or construction, less accumulated depreciation and accumulated impairment. The cost of fixed assets includes taxes (other than those subsequently recoverable from tax authorities), duties, freight and other directly attributable costs related to the acquisition or construction of the respective assets. Expenses directly attributable to new manufacturing facility during its construction period are capitalized. Know-how related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant asset heads. Profit or Loss on disposal of tangible assets is recognised in the Statement of Profit and Loss.

(ii) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any. Profit or Loss on disposal of intangible assets is recognised in the Statement of Profit and Loss.

(iii) Depreciation & Amortisation

- 1) The Company has provided depreciation
 - i. On all additions up to 31.03.1994 under Written Down Value Method and at rates specified under Schedule XIV of the Companies Act, 1956.
 - ii. On all additions after 31.03.1994 under Straight Line Method and at rates specified under Schedule XIV of the Companies Act, 1956.
- 2) In respect of all additions during the year depreciation is provided pro-rata on monthly basis.
- 3) Intangible Assets -Computer Software expenses are written off over a period of three years.

apcotex industries limited

(iv) Impairment

An assessment is also done at each Balance Sheet date whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. The carrying amount of the fixed asset is increased to the revised estimate of its recoverable amount but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss is recognised in the statement of Profit and Loss for the year. After recognition of impairment loss or reversal of impairment loss as applicable, the depreciation charge for the fixed asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on straight line basis over its remaining useful life.

(C) Investments

Non-current investments are carried at cost. Provision for diminution in the value of non-current investments is made only if such a decline is other than temporary in the opinion of the management.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit or loss on sale of investments is determined on a First In First out Method.

(D) Inventory

- (i) Raw and packing materials are valued at cost or market value, whichever is lower, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes, which are subsequently recoverable from the taxing authorities.
- (ii) The finished goods inventory is valued on the principle of cost, or market value whichever is lower. It includes material cost, conversion and other costs incurred in bringing the inventories at their present location and condition.
- (iii) Work-in-process is valued at material cost and cost of conversion appropriate to their location in the manufacturing cycle.
- (iv) Stores, spares and consumables are valued at cost, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes that are subsequently recoverable from the taxing authorities, if any
- (v) Damaged, unserviceable and inert stocks are suitably depreciated.

(E) Transactions in foreign exchange

(i) Initial recognition:

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction.

(ii) Measurement of foreign currency items at the Balance Sheet date:

Foreign currency monetary items of the Company are restated at the closing exchange rates. Non-monetary items are recorded at the exchange rate prevailing on the date of the transaction. Exchange differences arising out of these translations are charged to the Statement of Profit and Loss. The Exchange Rate Difference on the loan taken for capital assets are being capitalised along with Interest till the date of commissioning of the said capital assets.

(F) Trade receivables

Trade receivables are stated after writing off debts considered as bad. Adequate provision is made for debts considered doubtful.

(G) Employees' Benefits

(i) Short Term Employee Benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognised in the period in which the employee renders the related service. The Company recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

(ii) Post-employment benefits:

(a) Defined contribution plans

Defined contribution plans are Employee State Insurance Scheme for eligible employees and Government administered Pension Fund Scheme for all employees and Superannuation Scheme for eligible employees. The Company's contribution to defined contribution plans are recognised in the Statement of Profit and Loss in the financial year to which they relate.

(iii) Other long-term employee benefits

Entitlements to annual privilege leave are recognised when they accrue to employees. Privilege leave can be availed or encashed subject to a restriction on the maximum number of accumulation of leave. The Company determines the liability for such accumulated leaves using the Projected Accrued Benefit method with actuarial valuations being carried out at each Balance Sheet date.

The Company presents this liability as current and non-current in the Balance Sheet as per actuarial valuations and certificate issued by an independent actuary.

(H) Research and Development

(i) Capital expenditure is shown separately under respective heads of fixed assets.

(ii) Revenue expenses are included under the respective heads of expenses.

(I) Provision for Taxation

Tax expense comprises of current tax i.e amount of tax for the period determined in accordance with the Income Tax act ,1961 and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period).

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted on or before the Balance Sheet date.

Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each Balance Sheet date to reassess realisation.

apcotex industries limited

(J) Borrowing Cost

Borrowing cost includes interest, amortisation of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised. All other borrowing costs are expensed in the period they occur.

(K) Other Accounting Policies

These are consistent with generally accepted accounting practices.

(L) Leases

Assets taken on operating lease

Lease rentals on assets taken on operating lease are recognised as expense in the Statement of Profit and Loss on an accrual basis over the lease term.

(M) Cash & Cash Equivalent

Closing balances include balances aggregating with banks in Fixed Deposits and Margin accounts, which are pledged against the bank guarantees and deposits with concerned authorities, which are not available for use by the company.

(N) Revenue Recognition

- a. Domestic sales are recognized at the point of dispatch of goods to customers, which is when risks and rewards of ownership are passed to the customers and stated net of trade discount and exclusive of sales tax and excise duty.
- b. Export sales are recognized based on the bill of lading except sales to Nepal which are recognized when the goods cross the Indian Territory, which is when risks and rewards of ownership are passed to the customers.
- c. Interest and other income are recognized on accrual basis.

(O) Measurement of EBITDA

The Company has elected to present earnings before interest (finance cost), tax, depreciation and amortization (EBITDA) as a separate line item on the face of the Statement of Profit and Loss for the year. The Company measures EBITDA on the basis of profit/(loss) from continuing operations.
